

Effective SAFETY Solutions

WHERE

Company: ALCOA (13)

Location: A Coruña

Business: Primary

THE ISSUE

Risk of accident because of the fall down of the forklift tooling with the load (cylinders of paste).

THE SOLUTION (additional level of protection put in place)

Type: (Technical - Procedures - Others)

Description of key feature or change versus current conditions:

Two fastening screws have been installed in the tooling for loading and unloading cylinders of paste. The tooling is attached to the forks to avoid the fall down of the load using the forklift.

PICTURES (if applicable) or ADDITIONAL INFO

SAFETY BENEFITS – pros/cons

- Reduction of fall down of the load because of slip of the tooling when it's loaded.
- Very low cost solution

IMPLEMENTATION COST (k€) AS APPLICABLE

Approx 10 € per tooling.
